## STATE EMERGENCY OPERATIONS CENTER

### Unified Area Command - COVID 19 Projected Costs (as of 4/11/20)

Expenditure of Interest	Cost
Astria Medical Center Lease (per month)	\$1,500,000
Rehabilitation and Nursing Center	\$13,503,280
Test Kits	\$264,061
N95 Respirators	\$169,816,628
Ventilators	\$17,360,629
Additional PPE (gloves, face shields, sanitation, etc.)	<b>\$121,425,936</b>
Total PPE Expenditures	<b>\$308,867,254</b>
SEOC Average Daily Costs (Includes DOH)	<b>\$167,000</b>
<b>Total Estimated Expenditures Reported</b>	<b>\$376,642,729</b>

#### Current Risks

- Price gouging (Attorney General Ferguson 4/7/20)
- Food bank supplies at dangerously low levels. (Governor Inslee 4/7/20)
- Public fatigue of stay home order. (Intel 4/9/20)
- Increased risk surrounding wildfire. (Intel and local news 4/9/20)
- Public response to second wave. (Intel 4/9/20)

#### Future Operations

- Preparations continue for the establishment of an alternate care site at the Astria Medical Center in Yakima Washington. Cleaning of the facility, placement of equipment, staff training and assignments, and contracting for wrap-around services are some of the actions being taken. The facility has a tentative availability date of 4/13/20.

#### General Situation

Washington State is actively responding to a global outbreak of respiratory disease caused by a novel coronavirus (COVID-19) that was first detected in China. The SEOC has been fully activated since January 22, 2020. Washington State continues to respond to the outbreak of COVID-19 through the use of non-pharmaceutical interventions (NPI) and the acquisition of test kits, personal protective equipment (PPE), intelligence, and logistical support. A fully activated response is coordinated through the SEOC.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

### Objective(s) in Priority Order:

#### Strategic Objectives in Priority Order:

1. Provide for the health and safety of all responders, including safe work and living environments, and non-pharmaceutical intervention (NPI) implementation throughout the incident.

19a. Be poised to implement emerging guidance on personal protective equipment allocation and use.

14b. Coordinate healthcare surge planning including personnel, equipment, and supplies amongst all partners.

5. Expand systems for continually sharing the common operating picture and the Essential Elements of Information (EIs) among all response partners, supporting agencies and stakeholders.

6b. Provide timely, complete accurate and culturally appropriate information about the COVID-19 situation. Promote health equity, actively combat stigma and discrimination to the residents of Washington. Informs healthcare system partners on the measures they must take in response to COVID-19.

7a. Apply the best public health and medical science for decision-making on controlling and mitigating the COVID-19 outbreak, including indicators of the effectiveness of NPI.

34. Ensure Human Services needs are met (e.g., Food Supply, Housing, Mental Health Support).

17a. Work with public and private sector partners to increase manufacturing capacity of critical supplies and equipment.

13. Mitigate impacts to private sector and infrastructure lifelines.

4b. Assist tribes, state agencies, and counties with requests for assistance.

36. Plan for long-term recovery of impacted sectors.

37. Monitor long-term impacts of NPI implementation.

10b. Maintain statewide procedures for donations, vendor and volunteer management.

8a. Support the operation of drive-thru testing sites.

12. Provide guidance on disbursement of federal and state funding.

11. Capture and monitor state agencies' costs associated with COVID-19 response.

#### Operational Objectives:

24a. Refine and communicate the allocation system for resource distribution. (Per Strategic Objective, SO 4b).

15b. Build a sustainable process for healthcare surge. (Per SO 14b.)

23a. Refine the process for resource management with Department of Enterprise Services (DES) and private sector partners. (Per SO 4a).

39. Continue to provide state agency technical assistance to the intelligence effort (SO 27).

30. Activate and continuously identify foodbank staffing and supply demand. (Per SO 4b).

38. Increase statewide testing capability through resource procurement (SO 8a).

35. Standup a system for streamlined data collection across sections and operationalize a data dashboard to inform key partners and decision makers (Per SO 5, 6b).

33. Develop equitable support tools for Limited English Proficiency (LEP) populations. (Per SO 6a).

32. Support community mental health through resource allocation, specifically through the Crisis Counseling program (Per SO 4b).

31. Distribute guidance on essential personnel to infrastructure partners. (Per SO 15).

28. Reach 100% target for essential business inquiries answers. (Per SO 6a).

29a. Maintain capacity to process the surge in suspected business violations reported. (Per SO 6b).

26a. Continuously update procedures for multi-agency financial accounting and reporting. (Per SO 11, 12).

# UNIFIED COMMAND STATE EMERGENCY OPERATIONS CENTER

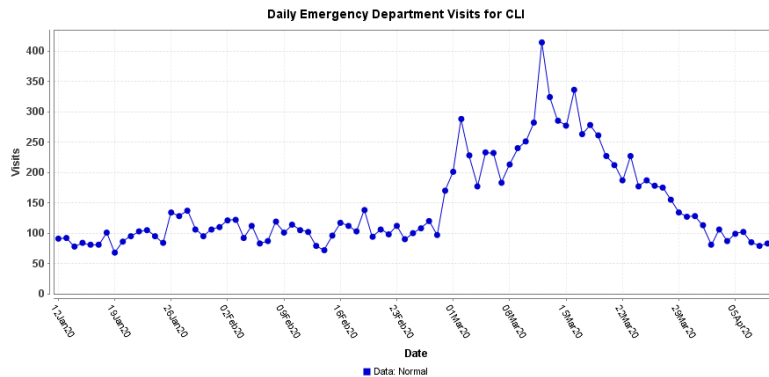

## Rapid Health Information Network (RHINO) Surveillance

At the date of these graphs, 87/99 (88%) Emergency Departments in the state submit data to RHINO. Data are preliminary and may change. These data are intended to be used for surveillance purposes only.

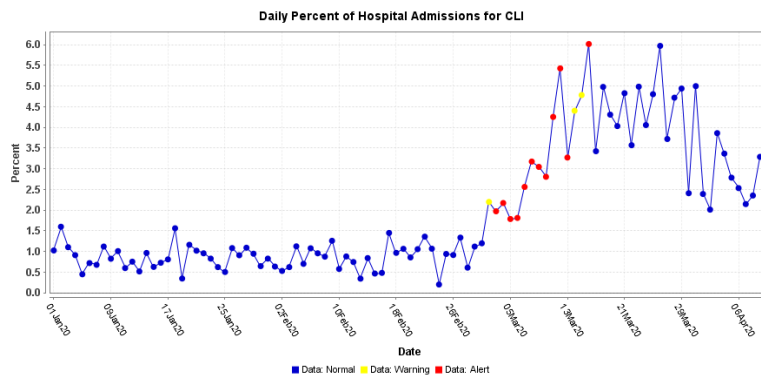

### Daily Emergency Department Visit Volume – Visits through 4/10/20

### Daily Emergency Department Visits for CLI\* – Visits through 4/10/20

### Daily Percent of Hospitalizations for CLI\* – Hospitalizations through 4/10/20

\*COVID-19-like Illness (CLI) includes subsyndromes of Fever or Chills AND Cough/Shortness of Breath/Difficulty Breathing. Subsyndromes are based entirely on key words in the initial chief complaint. Please note these visits are not confirmed COVID-19 cases. While some visits of interest may be missed and others that are not of interest included, the intent is to monitor trends in syndromes that may be sensitive to circulation of COVID-19 in the community.

# UNIFIED COMMAND STATE EMERGENCY OPERATIONS CENTER

## Institute for Health Metrics and Evaluation (IHME) Projections for Hospital Resource Use (4/11/20)

### COVID-19 projections assuming full social distancing through May 2020

Last updated April 10, 2020 (Pacific Time).

Quinault Indian Nation: Declaration 3/18/20	

### Federal & National Actions Undertaken

#### Presidential Actions

- On March 13, 2020, President Trump declared a nationwide emergency pursuant to Sec. 501(b) of Stafford Act to avoid governors needing to request individual emergency declarations.
- All 50 states, the District of Columbia, five territories and 23 tribes are working directly with FEMA under the nationwide emergency declaration for COVID-19
- On March 27, 2020, the President signed the Coronavirus Aid, Relief, and Economic Security (CARES) Act (the "Act") into law following the Act's approval by both chambers of Congress. The Act is aimed at reducing the economic impact of the novel coronavirus 2019 ("COVID-19") pandemic and authorizes \$2.1 trillion in aid to various sectors of the economy.

#### Federal Agencies

- Widespread closure of National Parks and US Forest Service trails.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

- North Cascades National Park, Ross Lake National Recreation Area, and Lake Chelan National Recreation area will close to all park visitors on 4/3/20 until further notice.
- Olympic National Park has closed all coastal areas on 4/11/20 until further notice.
- Department of Homeland Security has delayed enforcing the REAL ID Act until 10/1/21 due to the pandemic.
- U.S. Department of Treasury and the Internal Revenue Service are developing a “Get My Payment” web app to help taxpayers track the status of their stimulus check and add direct deposit information if they have none on file. It is set to launch next week.

### State of Washington Actions Undertaken

#### School Closures

Governor’s Proclamation 20-09.1 (4/6/20) extends closures through the end of the 2019-2020 school year.

Governor’s Proclamation 20-12 (3/13/20) ordered all public and private universities, colleges, technical schools, apprenticeships and similar programs to suspend in-person classroom instruction and lectures related to all educational and apprenticeship related programs. Affiliated labs and clinics may still occur if social distancing measures are strictly implemented.

#### ‘Stay Home, Stay Healthy’ Proclamation

Under the Governor’s ‘Stay Home, Stay Healthy’ Proclamation 20-25 (3/23/20), every Washingtonian is to remain in their homes except for essential activities or to go to work for an essential business. Activities considered essential are obtaining necessary supplies and services; engaging in activities essential for the health and safety of the household; caring for a family member, friend, or pet; and engaging in outdoor exercise (while still following social distancing practices). A list of essential businesses can be found here:

<https://komonews.com/news/coronavirus/list-of-jobs-businesses-considered-essential-during-washingtons-stay-at-home-order>

#### Service Shutdowns and Disruptions

Proclamation Amendment 20-13 (3/16/20) issues a state-wide shutdown of restaurants, bars, entertainment, and recreational facilities. Restaurants will still be allowed to provide take-out and delivery services. The ban does not apply to grocery stores and pharmacies, and other retail outlets will have reduced occupancy.

Washington State Parks and Recreation, Department of Fish and Wildlife (WDFW), and the Department of Natural Resources have closed all state campgrounds, day use areas, and trails in Washington. WDFW has also closed the fishing and shellfishing season.

The Supreme Court of Washington has issued an order to suspend or adjust trials through 4/24/20.

Department of Natural Resources (DNR) implemented a burn ban in Eastern Washington effective 4/10/20 until further notice. Permitted fires still allowed in Western Washington, however DNR reminds citizens that firefighters and first responders are actively responding to COVID-19 and recommend cancelling or postponing outdoor burns if possible.

#### Travel/Border Updates

United States-Canadian border closed for nonessential travel for 30 days. (3/21/20)

United States Department of State has issued a Level 4 travel advisory for international travel. (3/21/20)

CDC has issued Warning Level 3 – Avoid All Nonessential International Travel. (3/27/20)

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

### Department of Commerce Grants

\$5 million is available for grants to Washington Tribal communities to aid in their response efforts. Each tribe will get a base amount of \$100,000, with the rest of the funds being allocated based on population. See Department of Commerce link for more information on eligible expenses:

<https://www.commerce.wa.gov/news-releases/commerce-announces-5-million-emergency-response-grant-for-tribes/>.

\$30 million in funding is accessible to every county to help local governments create housing necessary for quarantine, isolation, and additional sanitation. Each county will receive a minimum of \$250,000, with the rest distributed based on the number of homeless persons. More information can be found here:

<https://www.commerce.wa.gov/news-releases/community-grants/commerce-announces-new-emergency-housing-grant-for-counties/>.

### Additional Support

*Washington State Patrol:* Mobilization of fire service resources has been authorized to aid in the COVID-19 response. The Washington State Fire Defense Committee anticipates the utilization of fire service resource for non-traditional, all-hazards response.

*Office of the Attorney General:* Launched an awareness and reporting campaign to report price gouging called "See It, Snap It, Send It". Complaints can be logged online.

*Department of Labor and Industries:* Released guidance on 4/9/20 regarding grocery store workers and how to keep them safe during the pandemic.

### Department of Health Status Updates

#### WA Department of Health Costs:

Expenditures through:	4/10/20
Total staff involvement	853
Staff Worked Past 24 Hours	469
Staff in Travel Status	31
Total Hours Worked	\$116,406
Total DOH effort	\$11,837,700
Non-Budgeted Expenditures	\$4,353,700
Average daily cost	\$146,100

#### DOH COVID-19 Literature Review

(Updated 4/9/20)

The scientific literature on COVID-19 is rapidly evolving and these articles were selected for review based on their relevance to Washington State decision making around COVID-19 response efforts. Included in this report are some manuscripts that have been made available online as pre-prints but have not yet undergone peer review.

#### Key Takeaways

- A testing protocol that has the potential to dramatically reduce the cost and complexity of population scale testing is proposed by Schmid et al.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

- Results from a study suggest an association between severe COVID-19 and lower serum concentrations of sodium, potassium, and calcium. These findings could have important clinical and pathogenic implications for COVID-19 patients.
- A digital patient-facing COVID-19 self-triage and self-scheduling tool adopted by a large academic health system is described. The tool has recommended emergency-level care with high sensitivity and decreased triage time for patients with less severe illness.
- University of Washington Medicine describes their rapid-rollout of informational technology (IT) capabilities in response to the COVID-19 pandemic, including expanded telemedicine, expedited change control processes to quickly update electronic health records, and integration of a hospital incidence command structure with IT.
- Research continues on refining and improving current testing capabilities, and one study suggests that self-collected throat washings may present a better COVID-19 sampling method.
- Multiple studies explore potential protective population level impacts on COVID-19 transmission and severity, including Vitamin D supplementation and Bacillus Calmette-Guerin (BCG) vaccination.
- Severe obesity may be a risk factor for severe COVID-19 infection requiring invasive mechanical ventilation (IMV).
- Some risk factors of prolonged viral shedding in COVID-19 patients, include male sex, delayed admission to hospital after illness onset, and invasive mechanical ventilation.
- More studies are being conducted to understand the association of any meteorological factors with COVID-19 transmission; the current study showing no association of COVID-19 transmission with temperature or UW radiation in Chinese cities.

### State Agency Impacts and COOP Activities

#### **Agriculture, Dept. of**

EOC operating remotely. COOP activated. Agency and division Mission Essential Functions updated. Mandatory telework effective until further notice—upholding essential functions that must occur in agency offices and buildings. **Adjusting pesticide testing to provide more room for social distancing with smaller groups of test takers.**

#### **Attorney General, Office of**

Partial activation of EOC. Mandatory telecommuting for entire office. In-person staffing by exception only.

#### **Children, Youth, and Families, Dept. of**

All DCYF buildings are closed to the public.

#### **Commerce, Dept. of**

Implemented Telework agency wide. Supporting SEOC Business and Infrastructure Branch activities and SEOC Advance Planning efforts.

#### **Conservation Commission**

COOP is active. Agency response/recovery meeting daily. Adhering to social distancing guidelines.

#### **Corrections, Dept. of**

Established HQ EOC. DOC has implemented screening measures where possible.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

### **Ecology, Dept. of**

EOC activated level 2. Telework implemented. Ecology has implemented teleworking and is prioritizing safety/health and environmental inspections and field work. Our regional offices are closed to the public and we are looking at options to limit access to the public in our HQ in Lacey.

### **Employment Security Department**

Implementing broad telework and social distancing. **Continuing to expand capacity and update technology to better meet the high levels of demand with regards to unemployment insurance Paid Family and Medical Leave.**

### **Financial Management, Office of**

EOC is virtual. COOP implemented. Adhering to social distancing guidelines.

### **Fish and Wildlife, Dept. of**

Closed facilities to the public (statewide), providing alternate avenues to customer service. WDFW Police Officers are patrolling statewide to implement the state's Stay Home, Stay Healthy order and enforcing state land, fishing, and hunting closures. All state lands will be closed to the public through 5/4/20.

### **Gambling Commission**

Activated Pandemic portion of agency COOP. Telework authorized at all levels. Law Enforcement Officers mandated to take precautions.

### **Health Care Authority**

As of Wednesday, March 18, HCA's lobby will be closed. In-person customer services for Apple Health and the PEBB and SEBB Programs will not be available.

### **Insurance Commissioner, Office of the**

Activated Phase 2 of COOP. Expanding telework options and other methods of adhering to social distancing.

### **Labor and Industry, Dept. of**

ECC Partial Activation. COOP activated per pandemic plan. Providing staff for future SEOC support.

### **Licensing, Dept. of**

Full EOC activation. COOP activated. Adhering to social distancing and NPI measures. DOL buildings are closed to the public. **Expiration dates for driver licenses has been extended 90 days, if your license was due to expire between 3/1/20 and 6/30/20. No new cards will be issued.**

### **Liquor and Cannabis Board**

COOP Activated. ECC Activated. Field staff adhering to all precautions. Assessing impacts to businesses regarding the Governor's order closing restaurants/bars.

### **Natural Resources, Dept. of**

The state Department of Natural Resources (DNR) closed all DNR-managed lands to the public **through 5/4/20**. Campgrounds closed through 4/30/20.

### **Parks and Recreation Commission**

All state parks closed through **5/4/20**.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

### Revenue, Dept. of

EOC activated. COOP activated. Closed front counters to public. Expanded telework options.

### Social and Health Services, Dept. of

ECC Activated. IMT focused on direct care facilities. Using WebEOC and adhering to social distancing guidelines.

### Transportation, Dept. of

HQ EOC is activated. COOP is active. Teleworking and adhering to social distancing guidelines. Most construction work has been suspended at least for the next two weeks.

### Treasurer, Dept. of

COOP partially activated (2 divisions). Focused on telework expansion.

### Veterans Affairs, Dept. of

Fully activated the ECC and COOP. Services are limited. Many locations have moved to teleworking and housing restrictions.

### Washington State Patrol

All WSP District and Detachment Offices closed to the public. Offices have notices posted with contact information. WSP temporarily stopped conducting Vehicle Identification Number (VIN) inspections at all locations until further notice.

### Small Business Association

The SBA has Economic Injury Disaster Loans for business in all counties that has suffered substantial economic injury. Visit <https://disasterloan.sba.gov/ela/> for more information.

## Response/Recovery Activities from 4/11/20

### OPERATIONS (ESF 5 Emergency Management)

- The Operations Section continued to receive and resolve concerns from local jurisdictions. Key areas of coordination involved, clarification of National Guard resource ordering, providing support to distribution of PPE, ensuring notification of local emergency management organizations of State activities in their jurisdictions, and supporting the collection of Strategic National Stockpile ventilators from across the State.
- Food Bank request process improvements: Working with ESF 6 Volunteer Team, ESF 11 Agriculture leads, and ESF 20 National Guard, we identified improved process steps to receive food bank staffing and supply requests via county emergency managers and triage through our various available resources. Our focus is funneling all local food bank requests through county EMs to maintain clarity and best allocation of resources. We actively encourage county EMs to share information and needs proactively with our branch at [SEOC193@mil.wa.gov](mailto:SEOC193@mil.wa.gov).
- The Operations Section continued to monitor and support state, tribal, and local EOC activations as requested. Operations also supports local emergency managers via four regional SEOC Representatives.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

- **Mission Assignment Unit**

- Continued to promptly process new resource requests in WebEOC and track several hundred existing requests. The majority of these requests continues to be PPE, medical supplies, and staffing needs. They worked closely with local requestors, SEOC Logistics, and SEOC Planning Section (Resource Support Unit) to ensure proper coordination as these requests are addressed.
- As of 1330 today, the total number of consolidated resource requests to counties, tribes, and state agencies is **902**. The cumulative status of resource requests in Resource Tracker (WebEOC) are as follows:
  - Unassigned = **5**
  - Assigned = **252**
  - Accepted = **78**
  - In Transit = **61**
  - On Scene = **47**
  - Completed = **300**
    - Please note, there are several requests whose status not currently summarized in the WebEOC's dashboard, which is the source for the above roll-up. They are included in the Total count, just not the status breakdown.

- **Notifications Unit**

- Continued fielding incoming emails and calls from state, local and tribal entities, distributing key information regarding SEOC calls and meetings, and compiling local data from county Emergency Managers. This data is coordinated with the Planning Section's Situation Unit.

### ***Business and Infrastructure Branch***

- Compliance Unit continues to process suspected business violations from the web form located on <https://coronavirus.wa.gov/business-workers>. Once processed these are pushed to the appropriate state agency for action. [Guidelines for Enforcement of Governor Inslee's COVID-19 Proclamations](#)
- Current numbers as of 1400 on **4/11/20**:
  - Essential Business Inquiries: **16,070 (+98)** processed; **305 (+25)** pending.
  - Suspected Business Violations: **16,319 (+528)** received.
- Branch continues to monitor potential issues to grocer and food supply chain. Independent grocers continue to report challenges with restocking shelves. In particular to food and agriculture and requests communities to notify us of known or suspected issues in your areas.
- In coordination with our infrastructure partners, we are tracking potential operational issues due to commodity disruption and shortages.

### ***Human Services Branch and ESF-6***

- Researching, identifying staffing needs for WA Food Fund food networks.
- Revisions to identifying staffing for food banks with counties.

### **ESF 1 Transportation**

- Continue to provide state agency technical assistance to the intelligence effort.
- Continue to identify potential impacts from implementation and compliance of NPIs.
- Support Department of Commerce business sector leads with their public-private partnership transportation needs in their efforts to expand manufacturing and supply chain capacity for the response effort.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

- Support the Business Response Group to respond to essential business inquiries regarding the Governor's proclamation as it applies to transportation.
- Continue to coordinate with stakeholders and partners to support supply chain integrity for grocery and pharmaceutical, transportation to include maritime, food and other identified sectors.
- Continues to reach out to employees for requests from SEOC future staffing shortfalls.
- Continues to see decline in ridership throughout all modes of transportation. Washington State Ferries is consolidating routes and continuing with winter schedule.

### ESF 2 Communication, Information and Warning Systems

- Working with the Hoh Tribe for coverage options and engaging with potential partners to provide a solution.
- Working on deconfliction regarding statewide drive in Wi-Fi project.
- Working equipment requests from Kitsap County, Hoh tribe, and Pend Oreille Counties.
- Coordinating equipment delivery to Kitsap County.

### ESF 3 Public Works

- Updates to current actions
  - **Opening of new Hospital facility in Yakima** – Health’s Office of Drinking Water completed advising the opening of the hospital in Yakima.
  - **Request for assessment of potential water quality concerns in building left empty** - Office of Drinking Water now looking broadly at potential water quality issues with the reopening of various building types that have been closed during the COVID-19 activities. A guidance is now under development through the DOH - Environmental Public Health Task Force. (still in development)
  - **Supply Chain Carbon Dioxide (CO2)** - Office of Drinking Water is still responding to Friday’s notification of a national shortage of **CO2**. Multiple water treatment plants use this in their process of treating drinking water and current plant design depends on this. Several had received initial notification from their vendors that their supply would be restricted to 33% of normal.  
  
So far utilities have been able to make the case that they are considered essential to critical infrastructure and have been returned to full supply. However, we want to ask if CISA can assess this through their contacts, if this is sustainable given the national shortage.
  - DOH- ODW has been connected with a regional producer in Vancouver Washington that could supply both Oxygen and CO2, should supplies run low.
  - Note: There is also a similar request for information from the Association of State Drinking Water Administrators for EPA HQ...this includes status of Oxygen use for Ozone disinfection.
- Changes in the situation
  - **Guidance to Essential Workers** - Now that CDC has new recommendations out on use of masks while out in public, Health and LNI will be evaluating need to modifications to [“Recommendations and Guidance to Protect Critical Infrastructure Workers during COVID-19 Pandemic”](#)
  - DOH has completed the updates to this document and it is now available at <https://www.doh.wa.gov/Portals/1/Documents/1600/coronavirus/GuidanceEssentialBusinessesProtectEmp.pdf>

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

- Projected next actions
  - Reaching out to WAWARN concerning recent requests for assessment of PPE needs in the water sector. There are currently several similar national (American Water Works Association and) and Statewide requests in process and we are looking for opportunities to coordinate with our state stakeholders for a consistent and thorough response. DHS-CISA is also being looped into these conversations.
- **Department of Enterprise Services**
  - For the Public Works projects that are deemed essential (infrastructure projects) the contractors are required to have a COVID 19 work plan on site. All other projects are being put on hold and the sites are being secured. DES is responding to questions from contractors as they respond to the Governor's order 20-25 and 20-25.1 through May 4.
  - L&I is limiting their inspection services. DES is working with them to understand the need for essential work to be completed through the COVID period.
  - Social distancing and sanitation procedures must be followed for worker safety. Contractors are having subs stop work for their own health and safety concerns. DES is working with contractors on a case by case basis.
  - DOC, DSHS and DCYF will continue NPI screening for all individuals entering their facilities. All agencies are seeing their first cases of COVID which will impact contractor's ability to work on certain essential projects.
  - Coordinate with Department of Ecology regarding wastewater treatment and solid waste concerns relative to operators and potential contact with the virus.

### ESF 4 Firefighting

- **Monitor IMTs filled through ESF4 that are assigned to County Health Districts for needs and support.**
- **Fill Resource Request for IMTs and Single Resource IMT positions.**
- Coordinate with the IMT Branch to ensure unity of effort.
- Monitor Washington Fire Service, service level impacts within the communities of Washington.
- Monitor for wildfire activity throughout Washington.

### ESF 6 Mass Care, Emergency Assistance, Temporary Housing and Human Services

- Coordinating Resource Requests to support isolation & quarantine facilities across the State
- Facilitating resource requests for equipment and staffing for isolation & quarantine facilities in King County. Assisting with research of potential sources for isolation & quarantine facility services.
- Coordinating with ESF 11 to address food bank issues, which involve both food supply and volunteer staffing. Priority task for Volunteer Management is food bank volunteers.
- Assisting tribal partners with resource requests and communications issues.
- Continuing to coordinate requests and offers for volunteers and donations via the covidhelp@mil.wa.gov inbox.

### ESF 7 Logistics Management and Resource Support

- **Purchases:**
  - **Gloves: 250,000**
  - **Test kits (medium and vials only): 350,000**
  - **Swabs: 350,000**

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

### ESF 8 Public Health, Medical and Mortuary Services

- **Disease containment:** Continue to provide public information and guidance on lab testing, specimen collection, and disease investigations.
- **Shoreline and DSHS:** Developing strategy for testing at long-term care facilities, establishing a master patient index.
- **Med surge:** Continue developing medical surge branch; working with DOC on alternate care facility and technical assistance, starting with Shelton and Monroe.
- **Tumwater:** Coordinating with FEMA to clarify final federal supply inventory, including needed PPE.
- **Tumwater:** Developing plans to support community-based testing operations for jurisdictions who will continue after federal program ends.
- **Tumwater:** Drafting gap analysis for behavioral health response.
- **DSHS:** Establishing PPE distribution system in each county.
- **DSHS:** 168 LTC facilities with positive cases, increase of 4. Continuing LTC inspections – 1,485 complete.
- Continue to coordinate with the 211-call center.
- Continue to register health and medical volunteers.

### ESF 11 Agriculture and Natural Resources (Operating remotely)

- WSDA RREMP was able to identify and share USDA Public Assistance contacts with the WSDA Fairs and Commodity Commissions group to gather more information around possible grant programs for fairground capital improvements to support emergency response efforts and community evacuation/relocation capacity.
- The Joint Information Center (JIC) has asked for state agencies to assist in responding to inquiries received through the Business and Workers section of the state's general coronavirus.wa.gov website. The WSDA Communications Director has offered to field questions being routed to WSDA and forward to appropriate subject matter experts within the agency.
- WSDA participated in the initial Economic Recovery Support Function Meeting on 4/9/2020.
- Coordinated efforts under the Human Services Branch
  - Support implementation and sharing communication on process flow to support county/city/tribal engagement in sharing awareness on food bank support and addressing unmet needs with support from state emergency management
  - Engagement with ESF 12 (Commerce), ESF 14, Business and Infrastructure Branch on initial steps (starting with messaging) on how to support critical infrastructure such as agricultural industry for cascading and long-term impacts of response efforts, return to routine business, and recovery.
  - Support counties in obtaining situational awareness of food bank operating status, changes to distribution model and resource needs.
  - Coordinate with federal and state agencies in support WSDA Food Assistance to develop plans to address specific food access and issues for tribal partners, contractors and subcontractors.
  - Monitor pet testing activities for COVID-19 in WA State and support the Isolation Facility Task Force.
  - WSDA discussed next steps on gaining situation awareness on pet food needs from counties with SEOC Human Resources Branch Lead.

# UNIFIED COMMAND

## STATE EMERGENCY OPERATIONS CENTER

### ESF 12 Energy

#### General:

- Challenges:
  - Energy Utilities would like support in communication for requests to support field hospitals, popup clinics, and similar for Federal, State, and County future plans. ESF 12 has not been included in these discussions previously and would recommend an infrastructure taskforce to be setup to support the operational communication for these needs for the duration of the pandemic.
- ESF 12 team will be implementing long-term (3-6 month; & 6-12 months) operational and logistical needs to maintain operational capacity to support the energy sector.
- Documenting the different lines of effort (LOE) for the sector and developing an operational plan to
- Maintaining accountability for private sector energy providers who are registering with the BRE Program.

#### Impacts to systems:

- Continued challenges and unmet needs from the energy sector:
  - Developing a survey to document unmet needs for PPE, Testing, and other relevant information in support with energy partners in coordination with the electric associations
  - ESF 12 is coordinating with the energy sector for resource requests:
    - ESF 12 has been requesting the local process to support energy partners to submit resource requests if they have met the criteria of no longer supplies on hand for a 7-10 period and have exhausted their current supply chain.
    - Each county receives resource requests differently and we are trying to provide the connection following the guidance that all requests must follow to the local EOC first.
  - Location of the temporary healthcare and other relevant facilities to support the response to COVID -19 as they are dependent up energy and the providers need to know the location if there is a power disruption or other issue.
- Maintaining updates in operational changes and capabilities from the energy sector due to impacts from COVID-19.
- Monitoring changes if utilities looking to isolate control room or mission essential personnel.
- ESF 12 has received the requests from energy sector partners for testing for control room and mission essential personnel prior to isolating them "shelter-at-site" notified them the state at this time cannot meet this request due to the priorities for healthcare workers and individuals with symptoms.
- Monitoring for potential interdependence impacts on the fuel supply chain/electric/natural gas (Alaska, BC, UT, MT, OR, ID) .

#### Policy:

- Coordinating with the Governor's Office and the Advanced Planning Team to look at economic/long-term recovery strategies for the energy sector. First meeting will be next week.
  - We will be forming an energy sector economic task force that will provide information to the larger groups (ESF 14, Advanced Planning Team, etc.).
- DOE is supporting getting the energy sector included in priority for PPE once the supply chain for medical needs is caught up. WA work group is also talking through this topic.
  - ESF 12 will be supporting a prioritization framework to include critical infrastructure in Washington State.

### ESF 13 Public Safety, Law Enforcement and Security (Operating remotely)
